

ELNUR HIGH HEAT RETENTION STORAGE HEATERS (HHR PLUS)

ELNUR
powered by Gabarron

Smart Heating | Proven Performance | Social Impact

Powering Smarter, Cleaner and More Affordable Heating Across the UK

Trusted electric heating manufacturer supporting social housing, retrofit programmes and low-carbon homes for over 50 years.

115,000+ Elnur HHR Heater installations

Trusted by local authorities & housing providers

Alleviating fuel poverty & creating energy-efficient homes

WHY ELNUR MATTERS

Performance Overview

- Up to 83% more efficient than standard storage heaters, when used with renewable energy
- Up to 56% more efficient than other HHR systems when used with renewable energy
- 17 hours of usable stored heat from off-peak or renewable sources

Built for the Future

- 100% renewable and solar compatible
- SAP compliant
- Demand-side response ready
- Designed for current and future retrofit programmes

Installed at Scale

- 115,000+ HHR heaters installed
- Used across local authority, social housing and private retrofit
- Large UK stocks available

Performance varies depending on system setup, energy source and usage.

TECHNOLOGY THAT MAKES THE DIFFERENCE

Intelligent Heating Control

- Wi-Fi / RF enabled
- Voice-controlled functionality
- Remote monitoring & control
- Daily & weekly scheduling
- 0.1°C precision temperature control
- Heating on demand or Heating when required

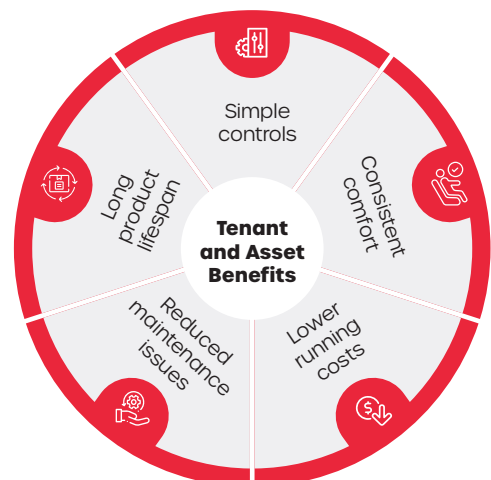

Smart Energy Management

- Patented Solar Manager
- Integrated Energy Manager technology
- Automatically optimises off-peak and renewable charging
- Reduces running costs for tenants

DESIGNED FOR SOCIAL HOUSING AND ALLEVIATING FUEL POVERTY

Supporting Landlords and Residents

- Can improve EPC ratings
- Reduces energy costs compared to other electric heating
- Supports Warm Home Plan delivery
- Suitable for PAS / WH:SHF / WH:LG pathways
- Lowers Carbon usage or footprint

INSTALLER AND MERCHANT SUPPORT

For Merchants

-  Dedicated account management
-  Competitive pricing & rebates
-  Strong stock availability
-  Direct-to-site delivery
-  Excellent credit terms

For Installers

-  Full product & installation training
-  Technical support
-  Heat loss and Heater calculations
-  Long warranties
-  On-site & remote support

COMPLIANCE, QUALITY AND SUSTAINABILITY

- ISO 9001 – Quality Management
- ISO 14001 – Environmental Management
- Ecodesign compliant
- Bronze EcoVadis rating
- 35% of UK operations powered by renewables
- Actively supports social housing decarbonisation

Powering the Transition to Smarter Heating

Elnur combines engineering, efficiency and social responsibility to help landlords, installers and local authorities deliver low-carbon heating at scale.

- Designed for today
- Ready for tomorrow
- Proven at scale
