PAYROLL SOLUTIONS

Remove CIS Risk & Simplify Payroll Processing

Ensure Compliance & Protect Your Business
with Bishop Oak's Seamless Solutions

The construction and recruitment sectors are fraught with the complexities of CIS (Construction Industry Scheme) compliance, leaving many businesses exposed to potential fines and inefficiencies.

Whether you're unsure where to start with CIS deductions or already using CIS but worried you may still at risk, Bishop Oak are here to take the stress off your shoulders and keep you fully compliant - without the risk of penalties.

Managing CIS deductions can be a burden, especially when communicating with subcontractors. You may face frustration when explaining that 20% must be deducted from payments or when you're uncertain if you're following regulations correctly.

Bishop Oak simplifies this process for you. CIS risk cannot be entirely eliminated, but with the right expertise, it can be fully managed and mitigated. Bishop Oak takes on this responsibility, ensuring your compliance while reducing administrative burden and financial exposure. We handle all the complexities, shielding you from potential penalties.

“

“We came because we hated doing the payroll ourselves, we were totally depended on 1 person. We stayed because the guys were happy as payments ran smoothly every time and they get their end of year sorted for them”
